Language Policy at the UIB

The **University of the Balearic Islands' Language Policy** is governed by its **Language Usage Regulations** and its **Language Plan**, which affect you as a student.

Language Policy ensures the **promotion of the Catalan language** in all areas of the university, multilingualism and the **welcoming of mobility students** who visit the UIB.

Language Policy wants to ensure that the language used in the classroom is **the language that appears in your teaching guide**.

Our aim is to guarantee
**linguistic transparency
and security.**

Contact us if you have doubts about which languages should be present in each area of the University.

If you have any questions, please write to us at

Learn and practice the language

The UIB offers the entire university community, including mobility students, various resources to facilitate the learning of Catalan. These resources include self-learning tools and face-to-face activities.

Access to the Catalan language not only enriches the cultural experience of people on an academic stay at the UIB, but also helps them to develop intercultural skills. Knowing Catalan contributes to full integration into society and the host university.

It also provides students and professionals of the institution with a set of linguistic tools for consultation, useful for making good use of the Catalan language in all areas.
